CONTENTS

NUMBER 1, JANUARY-FEBRUARY, 1941

Color in California Wines. IV. The Production of Pink Wines. Maynard A. Amerine and A. J. Winkler 1

Improved Methods of Distilled-Liquor Analysis. Walter C. Tobie 15

A Study of Homemade Ice Cream. V. D. Foltz and W. H. Martin 31

Riboflavin Determination by the Microbiological Method. Aaron Arnold, S. T. Lipsius, and D. J. Greene 39

Vitamin C Content of Tomatoes. Almeda Perry Brown and Faye Moser 45

Determination of Carotene in Fresh and Frozen Vegetables by an Improved Method. II. Carotene Content of Asparagus and Green Lima Beans. William I. Zimmerman, Donald K. Tressler, and Leonard A. Maynard 57

A Facultatively Anaerobic Mold of Unusual Heat Resistance. C. C. Williams, E. J. Cameron, and O. B. Williams 69

Fermentation in Meat Products by the Genus *Bacillus*. L. B. Jensen and W. R. Hess 75

Effect of Cooking Upon the Vitamin B_1 Content of Two Types of Beans Grown in Michigan. Eunice Kelly and Thelma Porter 85

Incidence of Yeasts in Cucumber Fermentations. John L. Etchells 95

NUMBER 2, MARCH-APRIL, 1941

Correlation of Subjective Scoring With Sugar Content of Frozen Peas. Evelyn L. Blanchard and Margaret Lee Maxwell 105

Incidence and Significance of the Colon-Aerogenes Group on Pecan Meats Morris Ostrolenk and Henry Welch 117

Relation of Time and Temperature to Growth and Enterotoxin Production of Staphylococci. Milton Segalove and G. M. Dack 127

Retention of Vitamins C and A in Glass-Packed Foods. C. R. Fellers and R. E. Buck 135

Observations on Carotene Analysis of Vegetables and Fruits as a Basis for Prediction of Their Vitamin A Value. Margaret Cammack Smith and Louise Otis 143

Preparation and Estimation of Crude Citrin Solutions (Vitamin P) From Lemons. A. J. Lorenz and L. J. Arnold 151

Bacteriological Studies of Fresh Crabmeat. Leonard C. Tobin and C. S. McCleskey 157

Thiamin Content of Dried Pork Muscle. E. H. Hughes 169

Effect of Cooking on Riboflavin Content of Chicken Meat. A. Z. Hodson 175

An Outbreak of Botulism Caused by Home-Canned Tomatoes. Glenn G. Slocum, Henry Welch, and Albert C. Hunter 179

Chemical and Histological Studies of the Disintegration of Cell-Membrane Materials in Vegetables During Cooking. Jean I. Simpson and Evelyn G. Halliday 189

A Study of the Sensitiveness of Prospective Food Judges to the Primary Tastes. Darline Knowles and Paul E. Johnson..... 207

NUMBER 3, MAY-JUNE, 1941

Loss of Vitamin C During Cooking of Rhubarb. E. Josephine Brown, Hulda Schuele, and Faith Fenton..... 217

An Investigation of Commercial Sauerkraut Production. D. Frank Holtman.. 225

Effect of Metal Skewers on Cooking Time and Tenderness of Beef. Sylvia Cover..... 233

Riboflavin Content of Pork Muscle. N. R. Ittner and E. H. Hughes..... 239

Collagen Determination in Cooked Meat. Edith F. Bell, Agnes Fay Morgan, and Adamae Dorman..... 245

Utilization of Skim Milk and Whey in Precooked Dried Soup. G. A. Ramsdell and B. H. Webb..... 265

A Study of Ham Souring. L. B. Jensen and W. R. Hess..... 273

NUMBER 4, JULY-AUGUST, 1941

Some Factors Influencing the Survival of Pathogenic Bacteria in Cold-Pack Strawberries. C. S. McCleskey and W. N. Christopher..... 327

Stability of Homogenized Milk in Cookery Practice. Herbert Hollender and K. G. Weckel..... 335

A Study of the Germicidal Action of Ultraviolet Light. I. Use of Ultraviolet Rays in Vegetable Hydrocoolers. F. R. Smith and R. L. Perry..... 345

Differential Staining of Living and Dead Yeast Cells. Dale R. Mills..... 361

Changes in Vitamin C Content of Bartlett Pears in Cold and Gas Storage. Donald K. Tressler and James C. Moyer..... 373

Incidence of Coliform Bacteria on Fresh Vegetables and Efficiency of Lactose Broth, Brilliant Green Bile Two Per Cent, and Formate Ricinoleate Broth as Presumptive Media for the Coliform Group. Glenn G. Slocum and William A. Boyles..... 377

Effect of Reduced Evaporation on the Provitamin A Content of Lettuce in Refrigerated Storage. Robert S. Harris and L. Malcolm Mosher..... 387

Ascorbic Acid Content of Pigmented Fruits, Vegetables, and Their Juices. Mary Mann Kirk and Donald K. Tressler..... 395

Use of Nile Blue Sulfate for Studying Oil-in-Water Emulsions. W. C. Cole and F. R. Smith..... 413

Application of the Refractometer to Determination of Total Solids in Milk Products. Varnum D. Ludington and E. W. Bird..... 421

NUMBER 5, SEPTEMBER-OCTOBER, 1941

Ascorbic Acid (Vitamin C) Content of Red Raspberries Preserved by the Frozen-Pack Method. E. Neige Todhunter and Ruth C. Robbins..... 435

Experiments on the Use of Certain Antioxidants for Control of Oxidized Flavor in Dairy Products. W. J. Corbett and P. H. Tracy..... 445

Nutritive Value of Agar and Irish Moss. Hugo W. Nilson and Joseph W. Schaller..... 461

Microbiological Studies of Cacao Fermentation. S. Hoynak, T. S. Polansky, and R. W. Stone..... 471

Behavior of Microörganisms at Subfreezing Temperatures. III. Influence of Sucrose and Hydrogen-ion Concentrations. Vernon H. McFarlane..... 481

Vitamin A Assays of Plant Tissues: Potential Sources of Error in Sampling. Lela E. Booher, Elizabeth M. Hewston, and Rosemary Loughlin Marsh.... 493

Identification of Calcium Pectate as the Tissue-Firming Compound Formed by Treatment of Tomatoes With Calcium Chloride. Joseph D. Loconti and Z. I. Kertesz..... 499

Further Results of Continued Administration of Propylene Glycol. W. Van Winkle, Jr., and H. W. Newman..... 509

Effect of Storage Conditions on Palatability of Beef. Ruth M. Griswold and Marion A. Wharton..... 517

Reliability of Organoleptic Tests. John W. Crist and H. L. Seaton..... 529

NUMBER 6, NOVEMBER-DECEMBER, 1941

A Study of the Germicidal Power of Some Orthophenylphenol Compounds Compared With Standard Chlorine Disinfectants in the Presence of Oyster Liquor. William A. Nolte and L. H. James..... 537

Chemical Analyses and Vitamin Assays of Macadamia Nuts. Carey D. Miller and Lucille Louis..... 547

Distribution of Minerals and Vitamins in Different Parts of Leafy Vegetables. Olive Sheets, Oliver A. Leonard, and Marvin Gieger..... 553

Freezer Storage Temperature as Related to Drip and to Color in Frozen-Defrosted Beef. J. M. Ramsbottom and C. H. Koonz..... 571

Ascorbic Acid Content of Onions and Observations on Its Distribution. Elizabeth F. Murphy..... 581

Scoring Baked Potatoes for Texture. Monroe E. Freeman..... 595

Auto-Oxidation of Filtered Citrus Juices. J. J. Hamburger and M. A. Joslyn 599

Studies on the Germicidal Efficiency in Control of Microörganisms in Starch. V. H. McFarlane and H. H. Hall..... 621

INDEX TO VOLUME 6

Amerine, Maynard A., and Winkler, A. J. Color in California wines. IV. The production of pink wines..... 1

An outbreak of botulism caused by home-canned tomatoes. Slocum, Glenn G., Welch, Henry, and Hunter, Albert C..... 179

Application of the refractometer to determination of total solids in milk products. Bird, E. W., and Ludington, Varnum D..... 421

Arnold, Aaron, Lipsius, S. T., and Greene, D. J. Riboflavin determination by the microbiological method..... 39

Arnold, L. J., and Lorenz, A. J. Preparation and estimation of crude citrin solutions (vitamin P) from lemons..... 151

Ascorbic acid content of onions and observations on its distribution. Murphy, Elizabeth F..... 581

Ascorbic acid content of pigmented fruits, vegetables, and their juices. Tressler, Donald K., and Kirk, Mary Mann..... 395

Ascorbic acid (vitamin C) content of red raspberries preserved by the frozen-pack method. Robbins, Ruth C., and Todhunter, E. Neige..... 435

A study of homemade ice cream. Foltz, V. D., and Martin, W. H..... 31

Auto-oxidation of filtered citrus juices. Hamburger, J. J., and Joslyn, M. A... 599

Bacteriological studies of fresh crabmeat. McCleskey, C. S., and Tobin, Leonard C..... 157

Behavior of microörganisms at subfreezing temperatures. III. Influence of sucrose and hydrogen-ion concentrations. McFarlane, Vernon H..... 481

Bell, Edith F., Morgan, Agnes Fay, and Dorman, Adamae. Collagen determination in cooked meat..... 245

Bird, E. W., and Ludington, Varnum D. Application of the refractometer to determination of total solids in milk products..... 421

Blanchard, Evelyn L., and Maxwell, Margaret Lee. Correlation of subjective scoring with sugar content of frozen peas..... 105

Booher, Lela E., Hewston, Elizabeth M., and Marsh, Rosemary Loughlin. Vitamin A assays of plant tissues: Potential sources of error in sampling..... 493

Boyles, William A., and Slocum, Glenn G. Incidence of coliform bacteria on fresh vegetables and efficiency of lactose broth, brilliant green bile two per cent, and formate ricinoleate broth as presumptive media for the coliform group..... 377

Brown, Almeda Perry, and Moser, Faye. Vitamin C content of tomatoes..... 45

Brown, E. Josephine, Schuele, Hulda, and Fenton, Faith. Loss of vitamin C during cooking of rhubarb..... 217

Buck, R. E., and Fellers, C. R. Retention of vitamins C and A in glass-packed foods..... 135

Cameron, E. J., Williams, C. C., and Williams, O. B. A facultatively anaerobic mold of unusual heat resistance..... 69

Changes in vitamin C content of Bartlett pears in cold and gas storage. Moyer, James C., and Tressler, Donald..... 373

Chemical analyses and vitamin assays of Macadamia nuts. Miller, Carey D., and Louis, Lucille..... 547

Chemical and histological studies of the disintegration of cell-membrane materials in vegetables during cooking. Simpson, Jean I., and Halliday, Evelyn G..... 189

Christopher, W. N., and McCleskey, C. S. Some factors influencing the survival of pathogenic bacteria in cold-pack strawberries..... 327

Cole, W. C., and Smith, F. R. Use of Nile blue sulfate for studying oil-in-water emulsions..... 413

Color in California wines. IV. The production of pink wines. Winkler, A. J., and Amerine, Maynard A..... 1

Collagen determination in cooked meat. Bell, Edith F., Morgan, Agnes Fay, and Dorman, Adamae..... 245

Corbett, W. J., and Tracy, P. H. Experiments on the use of certain antioxidants for control of oxidized flavor in dairy products..... 445
Correlation of subjective scoring with sugar content of frozen peas. Maxwell, Margaret Lee, and Blanchard, Evelyn L..... 105
Cover, Sylvia. Effect of metal skewers on cooking time and tenderness of beef 233
Crist, John W., and Seaton, H. L. Reliability of organoleptic tests..... 529
Dack, G. M., and Segalove, Milton. Relation of time and temperature to growth and enterotoxin production of staphylococci..... 127
Determination of carotene in fresh and frozen vegetables by an improved method. II. Carotene content of asparagus and green lima beans. Zimmerman, William I., Tressler, Donald K., and Maynard, Leonard A..... 57
Differential staining of living and dead yeast cells. Mills, Dale R..... 361
Distribution of minerals and vitamins in different parts of leafy vegetables. Sheets, Olive, Leonard, Oliver A., and Gieger, Marvin..... 553
Dorman, Adamae, Bell, Edith F., and Morgan, Agnes Fay. Collagen determination in cooked meat..... 245
Effect of cooking on riboflavin content of chicken meat. Hodson, A. Z..... 175
Effect of cooking upon the vitamin B_1 content of two types of beans grown in Michigan. Kelly, Eunice, and Porter, Thelma..... 85
Effect of metal skewers on cooking time and tenderness of beef. Cover, Sylvia 233
Effect of reduced evaporation on the provitamin A content of lettuce in refrigerated storage. Harris, Robert S., and Mosher, L. Malcolm..... 387
Effect of storage conditions on palatability of beef. Wharton, Marion A., and Griswold, Ruth M..... 517
Etchells, John L. Incidence of yeasts in cucumber fermentations..... 95
Experiments on the use of certain antioxidants for control of oxidized flavor in dairy products. Tracy, P. H., and Corbett, W. J..... 445
A facultatively anaerobic mold of unusual heat resistance. Williams, C. C., Cameron, E. J., and Williams, O. B..... 69
Fellers, C. R., and Buck, R. E. Retention of vitamins C and A in glass-packed foods..... 135
Fenton, Faith, Brown, E. Josephine, and Schuele, Hulda. Loss of vitamin C during cooking of rhubarb..... 217
Fermentation in meat products by the genus *Bacillus*. Jensen, L. B., and Hess, W. R. 75
Foltz, V. D., and Martin, W. H. A study of homemade ice cream..... 31
Freeman, Monroe E. Scoring baked potatoes for texture..... 595
Freezer storage temperature as related to drip and to color in frozen-defrosted beef. Ramsbottom, J. M., and Koonz, C. H..... 571
Further results of continued administration of propylene glycol. Newman, H. W., and Winkle, Jr., W. Van..... 509
Gieger, Marvin, Sheets, Olive, and Leonard, Oliver A. Distribution of minerals and vitamins in different parts of leafy vegetables..... 553
Greene, D. J., Arnold, Aaron, and Lipsius, S. T. Riboflavin determination by the microbiological method..... 39
Griswold, Ruth M., and Wharton, Marion A. Effect of storage conditions on palatability of beef..... 517
Hall, H. H., and McFarlane, V. H. Studies on the germicidal efficiency of chlorine in control of microörganisms in starch..... 621
Halliday, Evelyn G., and Simpson, Jean I. Chemical and histological studies of the disintegration of cell-membrane materials in vegetables during cooking..... 189
Hamburger, J. J., and Joslyn, M. A. Auto-oxidation of filtered citrus juices 599
Harris, Robert S., and Mosher, L. Malcolm. Effect of reduced evaporation on the provitamin A content of lettuce in refrigerated storage..... 387

Hess, W. R., and Jensen, L. B. Fermentation in meat products by the genus *Bacillus*..... 75
Hess, W. R., and Jensen, L. B. A study of ham souring..... 273
Hewston, Elizabeth M., Marsh, Rosemary Loughlin, and Booher, Lela E. Vitamin A assays of plant tissues: Potential sources of error in sampling..... 493
Hodson, A. Z. Effect of cooking on riboflavin content of chicken meat..... 175
Hollender, Herbert, and Weckel, K. G. Stability of homogenized milk in cookery practice..... 335
Holtman, D. Frank. An investigation of commercial sauerkraut production.... 225
Hoynak, S., Polansky, T. S., and Stone, R. W. Microbiological studies on cacao fermentation..... 471
Hughes, E. H. Thiamin content of dried pork muscle..... 169
Hughes, E. H., and Ittner, N. R. Riboflavin content of pork muscle..... 239
Hunter, Albert C., Slocum, Glenn G., and Welch, Henry. An outbreak of botulism caused by home-canned tomatoes..... 179
Identification of calcium pectate as the tissue-firming compound formed by treatment of tomatoes with calcium chloride. Kertesz, Z. I., and Loconti, Joseph D..... 499
Improved methods of distilled-liquor analysis. Tobie, Walter C..... 15
Incidence and significance of the colon-aerogenes group on pecan meats. Ostrolenk, Morris, and Welch, Henry..... 117
Incidence of coliform bacteria on fresh vegetables and efficiency of lactose broth, brilliant green bile two per cent, and formate ricinoleate broth as presumptive media for the coliform group. Boyles, William A., and Slocum, Glenn G..... 377
Incidence of yeasts in cucumber fermentations. Etchells, John L..... 95
An investigation of commercial sauerkraut production. Holtman, D. Frank.... 225
Ittner, N. R., and Hughes, E. H. Riboflavin content of pork muscle..... 239
James, L. H., and Nolte, William A. A study of the germicidal power of some orthophenylphenol compounds compared with standard chlorine disinfectants in the presence of oyster liquor..... 537
Jensen, L. B., and Hess, W. R. Fermentation in meat products by the genus *Bacillus*..... 75
Jensen, L. B., and Hess, W. R. A study of ham souring..... 273
Johnson, Paul E., and Knowles, Darline. A study of the sensitiveness of prospective food judges to the primary tastes..... 207
Joslyn, M. A., and Hamburger, J. J. Auto-oxidation of filtered citrus juices.. 599
Kelly, Eunice, and Porter, Thelma. Effect of cooking upon the vitamin B_1 content of two types of beans grown in Michigan..... 85
